

CLARK NEILSEN T. DIZA

Software Engineer II | Mid-Level Backend Developer

+63 956 628 8259 | dizacn.prnsn@gmail.com | <https://www.linkedin.com/in/clark-neilsen-diza>

Objective

Detail-oriented Backend Engineer specializing in building robust Java (Spring Boot) and PHP (Laravel) architectures, developing secure RESTful APIs, and managing containerized deployment workflows.

Work History

2026 – Present

Software Engineer II • Mid-Level Backend Developer

Beacon, Solutions Inc.

Quezon City

- Developed scalable backend microservices using Java and Spring Boot, creating RESTful endpoints to handle business logic and data exchange.
- Contributed to the development of backend services such as EDXIP, SSS Portal, DND Portal, and many others.
- Built and secured RESTful API endpoints using Spring Boot, implementing request validation logic to handle incoming JSON payloads and ensure database integrity.
- Collaborated with cross-functional engineering teams to refactor legacy code, review architecture schemas, and resolve critical production bugs.

2022 – 2025

Web Developer & Project Lead

The Lewis College / Freelance

Sorsogon City

- Built the Identification & Monitoring System for Sorsogon Province using Laravel and VueJS, designing the MySQL databases and implementing core CRUD APIs.
- Developed a Procurement System with an automated Document Tracking workflow for Sorsogon City Municipal Hall, implementing secure state-machine data logic.
- Led the technical architecture and end-to-end development of a containerized Pharmaceutical Inventory System utilizing Laravel, Docker, and Postman.
- Designed relational database schemas (MySQL/PostgreSQL) and developed the backend API routing and controllers for provincial tracking and procurement systems.

2022 – 2025

College Instructor – Information Technology

The Lewis College

Cogon, Sorsogon City

- Mentored 100+ students annually on Object-Oriented Programming (OOP) principles, clean code architectures, and database management.
- Guided students on software development best practices, Git workflows, and API testing to elevate overall project execution and technical competency.
- Served as Capstone Project Adviser for 7 engineering cohorts, achieving a 100% project delivery and passing rate by simulating real-world production environments.

Tools and Frameworks

- **Backend:** Java (Spring Boot) | PHP (Laravel, CodeIgniter) | Python (Flask)
- **Frontend & Tools:** JavaScript (Vue, React) | RESTful API Development | Postman | Insomnia | Git / GitHub
- **Infrastructure & Databases:** PostgreSQL | MySQL | Docker | Linux | Apache | Nginx | cPanel
- **Tools:** GitHub | Postman | Insomnia

Educational Attainment

Tertiary

The Lewis College

Bachelor of Science in Information Technology (2018 – 2022)

Achievements & Engagements

- **Programming Championships:** 1st Place – Ateneo Programming Challenge (2021) | 1st Place – TLC College (2019) | 1st Place (2018) & 2nd Place (2017) – TLC Senior High School
- **Industry Engagements:** Participant – Bicol IT Congress (BitsCon 2023)
- **Trainings:** Apache Kafka for Event-Driven Spring Boot Microservices (Udemy 2026)
